Subject: Introducing Korea's Programs for Metro Project in Da Nang

Dear Sir,

We, Seoul Metro, would like to express our sincere gratitude to your esteemed Da Nang People's Committee for an opportunity to introduce ourselves.

Seoul Metro was established by Seoul Metropolitan Government's full investment for operating Seoul metro lines 1~8, serving the largest and most extensive metropolitan metro system in the Republic of Korea with a total of 277 stations, 300.1km. Seoul metro stands at the center of public transportation system in Seoul and is globally recognized as one of the best metropolitan metro corporations.

With our considerable experience, we would like to assure that we are committed to providing the most reliable and highest quality services for establishing metro system in Da Nang. Furthermore, we would like to provide consulting services for the development of public transportation as well as urban railways in Da Nang.

In this letter, we would like to introduce two programs for traffic development of Da Nang as below.

1. Knowledge Sharing Program(“KSP”)

KSP is an economic cooperation platform that provides economic development strategies and policy suggestions by sharing Korea's advanced knowledge and economic development experience with the recipient countries. The public transport planning in Da Nang has a comprehensive plan for metro lines and tram routes, but systematic research has not been conducted in this regard. Therefore, it would be better to promote related research through KSP which is grant-type aid. In order to proceed with KSP(2018/2019), the demand survey should be completed and submitted to the Ministry of Strategy and Finance in Korea through the Vietnam Ministry of Planning and Investment and the Embassy of the Republic of Korea by September 30th of this year.

2. 2017 Seoul Training Program for International Railway Official(“Seoul Training Program”)

Through Seoul Training Program, you can experience the excellence of Seoul Metropolitan metro construction and operation technology. The duration of the invitation will be October 18th to 25th in this year(planned), and Seoul Metropolitan Government will provide most of the expenses to the four executives of the Da Nang People's Committee executive level(and above), excluding visa issuance costs.

We are very pleased to have an opportunity to send you this letter and look forward to your favorable consideration.

Very Truly Yours,

For and On behalf of Seoul Metro

Jong-Bum, Kim
Head of Overseas Business Dept.
Seoul Metro
